### HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael O'Neill on 3/10/09 1:00 PM ET and 3/20/09 1:45 PM ET.

The application has been amended as follows:

In **claim 39**, delete "the" in the phrase, "other being guided to the detection means" (line 5).

In **claim 40**, delete "the" in the phrase, "transmission line to the detection means" (last line).

Replace **claim 41** with the following:

A high frequency sensing method comprising,  
using the electromagnetic wave generating device according to claim 31, to measure information of an object placed on the transmission line by detecting an electromagnetic wave propagated through the transmission line as an electric signal using a detection means.

Replace **claim 42** with the following:

A high frequency sensing method comprising,  
using the electromagnetic wave generating device according to claim 40, to  
measure information of an object spaced from the transmission line by detecting the  
electromagnetic wave propagated through the transmission line as an electric signal  
using the detection means.

**DETAILED ACTION**

***Allowable Subject Matter***

**Claims 31-42** are allowed.

The following is an examiner's statement of reasons for allowance:

With regard to claim 31: This claim is allowable over the prior art of record (including all the references stated in the foreign patent office search reports filing in this application) because the latter, either alone or in combination, does not disclose nor render obvious an electromagnetic wave generating device for generating an electromagnetic wave having a frequency ranging from 30 GHz to 30 THz including,

- a laser device,
- an optical waveguide for propagating a laser beam emitted from the laser device,
- a photoconductive switch for converting the laser beam to the electromagnetic wave,
- a transmission line comprising a conductor for propagating the electromagnetic wave converted by the switch,
- a first and second electrode provided on an upper surface of the switch such that a gap is formed between the electrodes at an end of the upper surface, which end is closer to the waveguide, and
- wherein the waveguide is arranged such that the laser beam irradiates a lateral surface of the switch, which lateral surface is closer to the waveguide, at a portion corresponding to the gap,
- in combination with the rest of the claimed limitations.

With regard to claims 32-42: These claims are allowable over the prior art of record because they depend from an allowable claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
